POINTERS FOR PARTICIPANTS

Things to Know

- Who can register to compete?
 - Anyone! There is no minimum experience or expertise required to enter a hackathon.
- Does this cost money?
 - No, this hackathon is completely free for everyone.
- Where should I go to register?
 - Go to the website for registering the event
- What is Team Size
 - Team Size may vary from 1-4 Members.
- Don't be a schmuck!
 - Read the Rules and guidelines, be a good citizen, make a list of everything you'll have handy in your workspace.

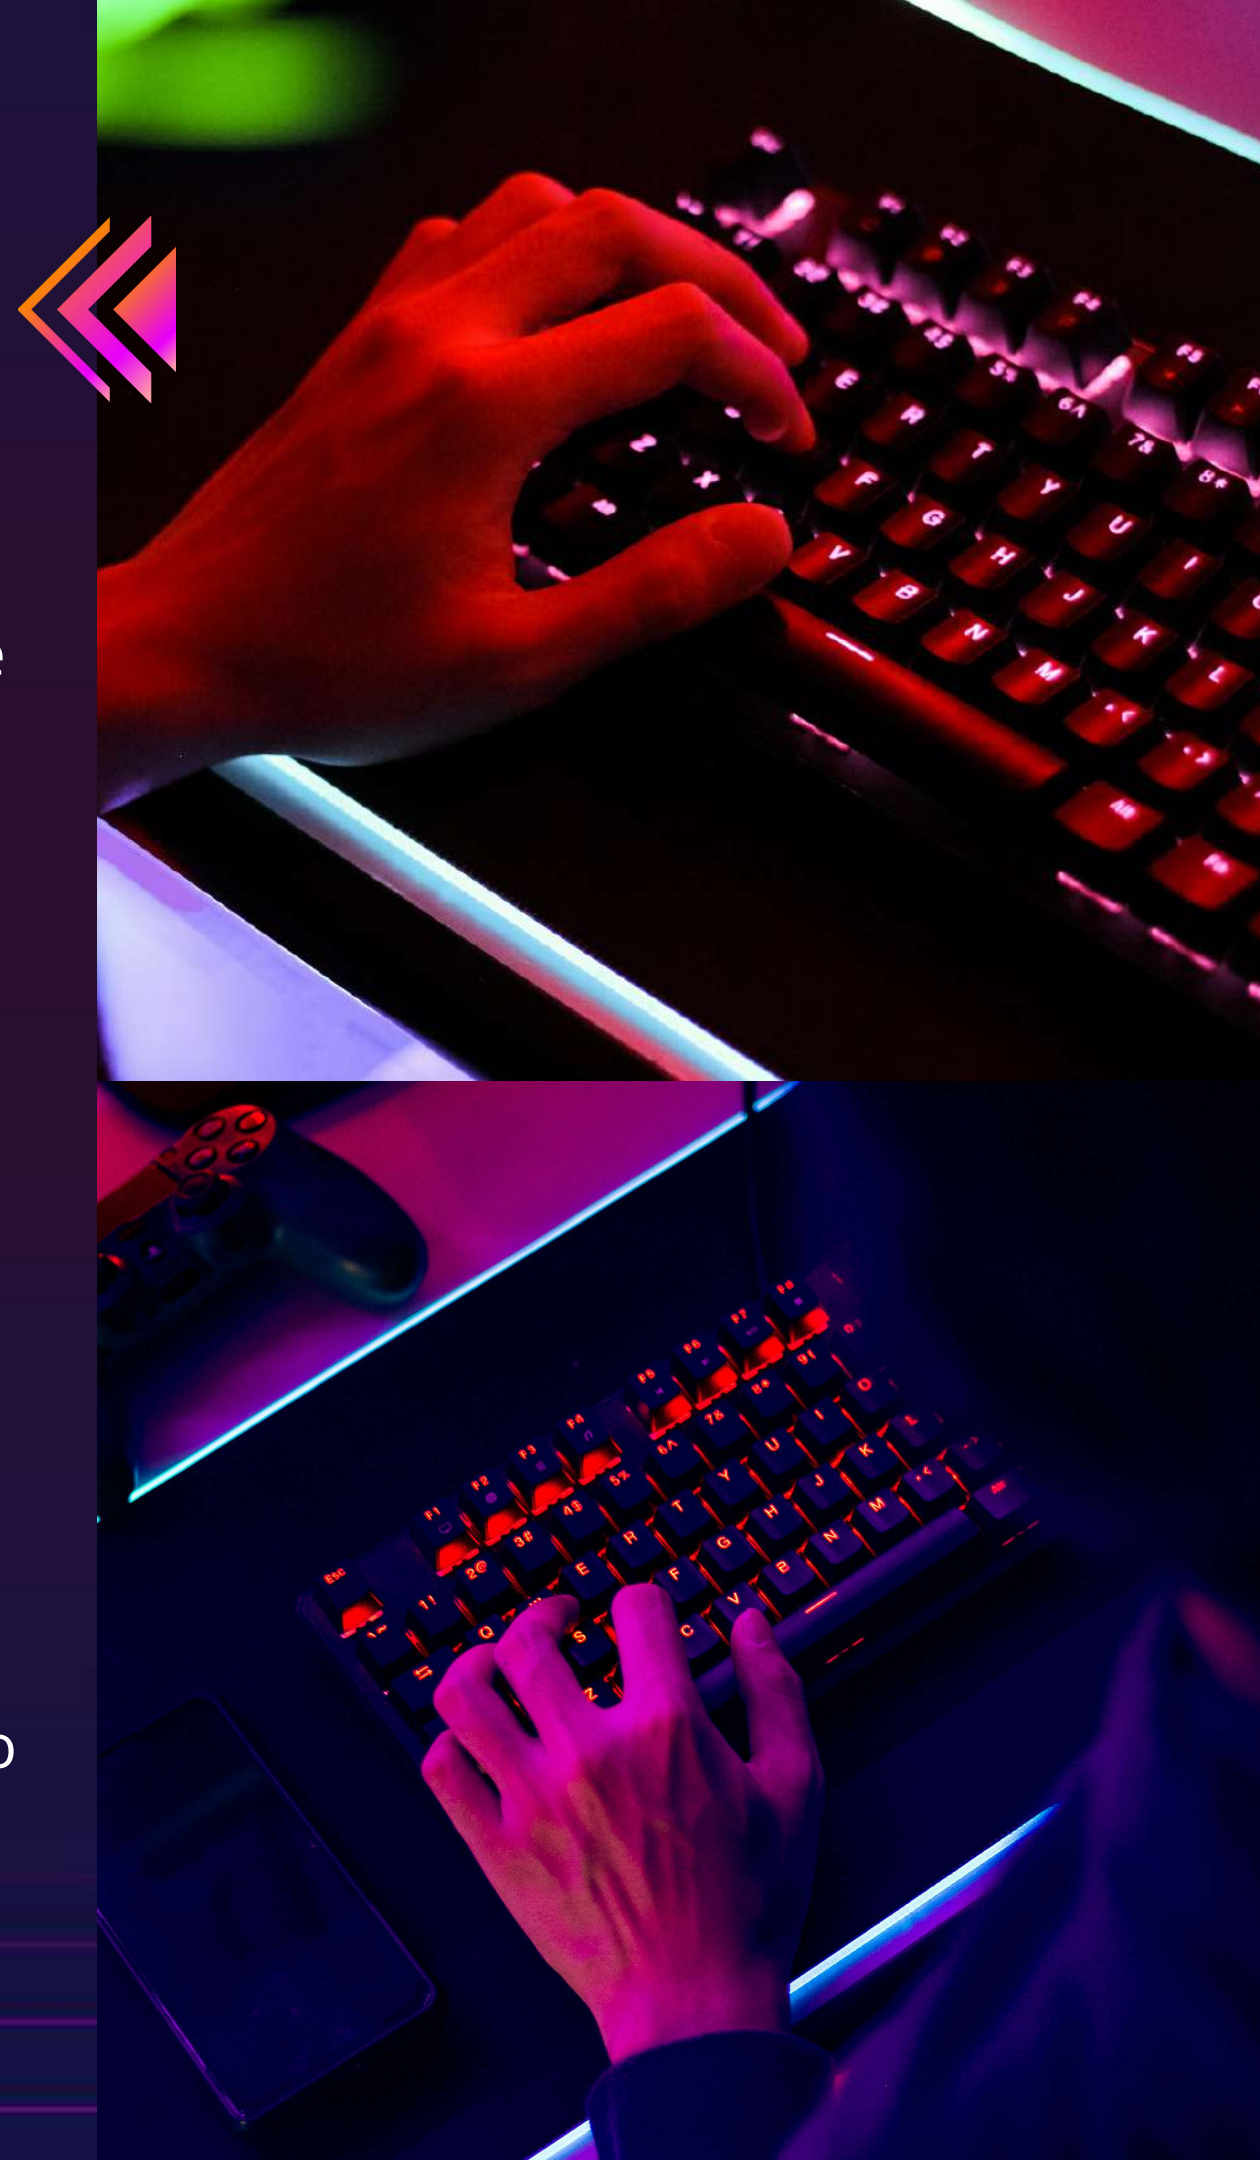

POINTERS FOR PARTICIPANTS

Tools and Resources- Discord Server!

- A discord server LINK will be accessible. You can utilize the Discord server to video call your teams and stay in touch with the private channels.
- The discord channel #resources is one significant resource tool you should keep an eye on.
- Introduce yourself in the #introductions channel and become familiar with, and contribute to discussions in other Discord Channels.

(IMPORTANT): Set-Up Discord, Join and set your status as “Name | PARTICIPANT” in your profile section! All important announcements and updates will be here, so will the primary communication between the mentors, competitors, sponsors and organizers. Check at least 2 times a day leading up to and during the hackathon.

PREPARATION

PREPARATION

Things you should prepare for beforehand.

1. **Set up your software and Hardware:** A GitHub repository will be extremely useful as part of your project submission. GitHub will help teams to 'branch' out on different parts of the project, as well as work with awesome code. Please refer to this guide if you are unsure how to set up your GitHub repository.
2. **Read up on the Tracks & Prize Categories:** to know what track(s) are available and familiarize yourself with the details and nuances of each. See if there's one you'd prefer over the others.
3. **Research the topic and theme:** The Discord channel will have valuable resources and learning tools for operating in the hackathon. You're also welcome to do your own research if you know what you want to get out of this experience or what you have in mind to work on.

TIPSY NOTES

Do's

- Start as soon as possible, set goals and outline your project.
- Schedule out smaller milestones.
- Research before you begin.
- Ask for help if required.
- Keep in touch with connections.
- Continue to build with the skills and knowledge you gained.

Don'ts

- Don't forget the discord community.
- Don't underestimate the power of non-technical teams.
- Avoid plagiarism.
- Follow up to Code Of Conduct and Guidelines
- Don't forget Social Media.

PERKS FOR PARTICIPATION

Every participant who submits their solution as an individual or team will be provided with a Participation Certificate.

Would also be offered with internship / full-time role if your skills are worth appreciating, irrespective of being a Winner or not.

WINNERS

All the winners will be awarded according to 9 Prize Categories along with Appreciation Certificate, Prizes and Huge Shout Out on Social Media Handles.

FREQUENTLY ASKED QUESTIONS

- **I'm a beginner. Am I eligible to participate?**
 - **Yes, of course, if you're a beginner it's the best way to start.**
- **I am a graduate. Can I still join this event?**
 - **Yes, all the college students including the students who graduated this year are invited.**
 - **Even working professionals <3 Years and people who don't have a formal education are also welcomed.**
- **Are we allowed to build on past projects?**
 - **No, you have to build completely new projects from scratch.**
- **Can I start working on my hack before the event?**
 - **Not at all. The work done during the hackathon period only gets counted.**
- **Can I apply for multiple tracks?**
 - **You can submit only one project but it can include as many tracks as you want.**
